

# Hemant Rawat

Aspiring Full Stack Developer | React.js, JavaScript, Express.js | Open to Opportunities hhemant669@gmail.com  
| +91-7895603932 | Delhi, New Delhi Portfolio: <https://hemant62382.github.io/portfolio>

---

## Education

Bachelor of Computer Applications (BCA)

St. Andrew Institute of Management & Technology | MDU University | Year of Completion: 2025

## Skills

**Web Technologies:** HTML5, CSS3, JavaScript, React.js, Responsive Design, Flexbox, Grid

**Backend & Tools:** Node.js, Express.js (Learning), Git & GitHub, Python

**Tools & Others:** Basic UI/UX Understanding, Version Control, VS Code

---

## Projects

### 1. Personal Portfolio Website

- Developed a fully responsive portfolio website using HTML, CSS, and JavaScript to showcase 5+ projects and technical blogs.
- Integrated smooth scrolling, animations, and responsive design, improving user engagement and increasing average time on site by ~30%.
- Engineered a library of 12+ modular UI components utilizing HTML, CSS, and JavaScript; this reduced front-end development cycles by 35% and enhanced code consistency across projects. Live: <https://hemant62382.github.io/portfolio>

### 2. To-Do List App

- Designed a React.js-based to-do application with interactive features and a mobile-responsive design, enabling users to organize daily tasks, resulting in a 20% improvement in user engagement.
- Integrated local storage for task persistence, ensuring data retention across sessions and enhancing user convenience by 100%.
- Implemented a modular component structure with 5+ reusable components, increasing code reusability and reducing future update time by 40%.
- Enhanced accessibility and mobile responsiveness, delivering a seamless experience across devices and improving mobile user satisfaction by ~30%.

### 3. E-Commerce Website (React.js, React Router, Tailwind CSS)

- Developed a **multi-page React application** with react-router-dom for smooth navigation (Home, Shop, Product Details, Forms).
  - Implemented a **responsive Navbar** with active link highlighting to improve user experience.
  - Integrated **Swiper.js** for interactive product carousels and smooth transitions.
  - Designed **Product Details page** for showcasing individual items with dynamic routing.
  - Built **Forms page** with input validation to handle user interactions effectively.
  - Applied **modern UI styling with Tailwind CSS** to ensure a clean and responsive design.
  - Followed component-based architecture for **reusable and maintainable codebase**.
-

## Experience

### Front-End Development Intern

- Architected a Text Translator application utilizing React, Tailwind CSS, and RapidAPI, streamlining translation into 12 languages and earning recognition as the team's most proficient intern during the project.
- Conceived a Random String Generator application utilizing React hooks (useState, useEffect, useCallback); enhanced user experience by enabling customizable string lengths ranging from 5 to 50 characters.
- Implemented client-side routing with React Router DOM to enable seamless navigation across 3+ dynamic pages, enhancing user experience and app scalability.
- Strengthened skills in modern front-end development by applying advanced React concepts and integrating external APIs in real-world projects, improving code quality and practical expertise.

## Summary

Enthusiastic and fast-learning web developer with a strong foundation in front-end technologies (HTML, CSS, JavaScript, React) and growing expertise in backend development (Node.js, Express.js). Passionate about creating responsive, user-friendly web applications. Seeking to contribute and grow at an innovative, product-based company like ChatReal.ai, leveraging my skills to deliver impactful real-world solutions and continuously enhance my technical abilities.

## Learning & Interests

**Learning:** Node.js, Express.js, MongoDB

**Interests:** Full Stack Development, AI-integrated Web Apps, Real-time Chat Systems
